EXPERIENCE

Founder & Financial Markets Researcher, Tradewithvss (Remote) Apr 2021 – Present

- Analysed 1000+ companies and forex markets using fundamental analysis (company financials, ratios, valuation concepts, risk factors) and technical analysis (price action, trends) on TradingView and Screener.
- Track macroeconomic events and market trends to assess their impact on sectors, price behaviour and investment drivers.
- Maintain structured trading and investment journals to review risk, returns, diversification and decision quality, reinforcing disciplined risk management.
- Share market research through the Tradewithvss Instagram channel (@tradewithvss) and website, strengthening written and visual communication of financial ideas.
- Work fully remotely and independently since 2021, managing research schedule, deadlines and decisions end to end.

PROJECTS

Equity Research & Valuation Framework Apr 2021 – Present

- Apply a repeatable company-analysis framework: business and industry review, financial statement and ratio analysis (profitability, liquidity, leverage, efficiency), valuation (DCF, NPV, IRR concepts, multiples), risks and investment thesis.

Personal Portfolio & Risk Analytics Apr 2021 – Present

- Track investments and positions to evaluate returns, volatility, drawdowns, diversification and portfolio performance through structured review.
